

## ANEXO 4 - DESCRITIVO DO ZONEAMENTO

### Coordenadas geográficas de delimitação das zonas

Os perímetros apresentados foram definidos sobre a base cartográfica disponibilizada pela Agência CONDEPE/FIDEM, integrante do Governo do Estado de Pernambuco. Todas as coordenadas presentes nas descrições dos perímetros que se seguem estão utilizando o SIRGAS 2000 (Sistema de Referência Geocêntrico para as Américas) e o sistema projetivo UTM (Projeção Universal Transversa de Mercator), Zona 25, devendo-se observar que o grau de precisão está relacionado à escala do material de origem. Os dados numéricos servem para registrar a fidelidade com os arquivos cartográficos digitais criados para o Plano Diretor, permitindo eventual averiguação no caso de perdas ou manipulação indevida dos arquivos originais, que possam afetar a precisa delimitação das zonas.
